

# Inspection and Inventory Solution

# ENIGMA

## Focus is the Key

**Capture every detail in high resolution**

The camera housing is compact, shockproof, water and dirt resistant (IP 67) and can be divided in two halves. That means when a full 360 degree view is not necessary, you can use the two halves on two vehicles capturing a 180 degree view.

And there's even more cleverness in our camera. It can be equipped with an IMU to exactly record the speed, orientation and gravitational forces so you can perform exact measurements from images taken from a moving vehicle.

**DATASHEET**  
version 1.0

## KEY FEATURES

### Details

Camera	3 x 5 MP camera, 180 degree field of view
	max. LxWxH available to fit camera with lens in housing is around 9x5x5 cm)
Housing	IP 67 camera enclosure (vandalism proof)
HSS	The Horus Security Suite
Dimensions	Diameter: 33 cm, Height: 8 cm
Weight	± 2 Kg

*information provide above is based on a single (180 degree) enigma housing*

## HORUS TURNKEY SOLUTION

Keeping an eye on the safety of people and property involves much more than meets the human eye. The Horus Security Suite lets you see what you WANT to see and what you NEED to see. We deliver state-of-the-art camera surveillance technology that looks all around, sees every little detail and even looks back in time. Our surveillance systems are a powerful and cost-efficient solution for the surveillance of wide areas, complex infrastructures and massive crowds.

### Feel responsible? Be responsible!

Our systems are state-of-the-art, custom built and quite literally even offer unseen imagery. Use the Enigma to **create situational awareness**, monitor vehicles (parking scanning), accident investigation system, quick scanning of surroundings for fast inventory or even use it for Live streaming.

If you would like to learn more about our systems or our company, please contact us. All questions will be dealt with confidentially.

### Designed to Fit

Choose the camera type your project needs. Easy and modular system set up.

See the Keyfeature table above for max. LxHxW dimensions your camera's should have.

*camera shown is for demonstration purposes only*

### Advantages

- ▶ Mobile or fixed (mobile in flight case)
- ▶ Magnetic fixation
- ▶ IP 67 camera enclosure (vandalism proof) aerodynamic design
- ▶ datatransfer via USB stick
